jaycie.me

With a strong desire to be in a creative and social setting, I have a passion for helping others, nurturing a friendly environment and learning and sharing knowledge along the way. While my background brings technical abilities I am happy to employ when needed, I am eager to work in a friendly, dynamic, ever-changing environment that can challenge and develop my skillset.

● Cherry Branch Café

Jun 2026 – Sept 2026 (until café closure)

A volunteer café in the heart of Cherry Hinton.

- Weekend front-of-house café work, involving greeting customers, taking orders, managing the till, using an automated coffee machine, and plating and serving cakes and snacks.
- Exposure to opening and closing the café, including setting up and taking down signage and outside seating and machinery.

● Isaac Science

Sept 2023 – Oct 2026

An online science platform for secondary school students run by the University of Cambridge.

- Built the website for students and teachers to access the platform.
- Helped to onboard three new developers to the team, and have delivered several talks to both the team and to a wider community in the department.
- Been involved in a number of events and outreach activities, from feature discussions and CPD with teachers to workshops and open days for students.
- Taken on a range of responsibilities for the university outside the direct job description, including teaching and interviewing.

University of Cambridge

2020–2023
